Digging into the funding focus:

To support and enhance the vibrancy of this region by increasing the availability \textit{and accessibility} of arts and cultural programming that is inclusive of 
\textit{historically marginalized groups} in our region.

What does it mean to increase availability and accessibility?

Who is included in “historically marginalized groups”?

What outcomes would align with this funding focus?
Applying a Racial Equity Lens

A racial equity lens is an approach that involves many components including:

• Disaggregating and analyzing data and information by race and ethnicity,
• Understanding disparities and learning why they exist,
• Looking at problems and their root causes from a structural standpoint,
• Naming race explicitly when talking about problems and solutions

Include how your organization is thinking about racial equity, and, if relevant, how that thinking influences your work in general, or this proposal specifically.
Thinking about evaluation

Goals
• What are you trying to achieve with this grant?
• Inspirational
• Both shorter and longer term goals

Measures
• How do you know how you’re doing?
• Concrete & measurable (include a target number/rate)
• Include outcomes (not just outputs)
• Align with past results

Methods
• How are you collecting the information you need for your measures?
• Clear
• Includes description of data collection process

Goals

• Our primary and short-term goal is to create 3 public art installations to highlight the growing Hispanic immigrant populations in Price Hill to create welcoming spaces in the neighborhood. We will conduct 5 community-informed events that will inspire the themes of the art installations. The art installation will be led by our partner, a Hispanic Artist, and 20 additional local, diverse artists will be hired to execute the installations.
• Our intermediate goal is to increase the availability of public art that is representative of the rapidly diversifying neighborhood of Price Hill.
• Our long-term goal is to create ongoing dialogue that promotes inclusive transformation of the historic, diverse and vibrant neighborhoods of Cincinnati. Through public art we can express the community’s collective voice and deepen resident’s sense of belonging.

Measures

• Employ 20 local artist with 50% of artists identifying as an artist of color.
• 90% of participants will report confidence in the project’s role in transforming Cincinnati.
• Residents will report 20% increase on a sense of belonging to their neighborhood upon project completion.

Methods

We will use Microsoft Excel to track artist participants and demographic information. For our programming, evaluation will be conducted by our organization’s Public Art Coordinator. A follow up survey created through X survey database will be sent to those who participated in the grand opening of the art installation to gather quantitative and qualitative data to measure audience’s perceptions on the project’s role transforming Cincinnati. We will conduct a community survey also through X survey database to collect quantitative and qualitative data pre- and post- completion of the art installation to measure resident’s sense of belonging.

Tips & Tricks

• RFP and FAQs are your primary guide.
• Your application is the primary means of expressing your work to the review committee.
• Make sure to attach all required materials.
• After submission, changes to the application are challenging to make.

• GCF staff welcome invitations to regularly scheduled learning events throughout the year, such as open houses and community stakeholder meetings.
• GCF staff will do our best to respond in a timely manner throughout the process. Last minute calls are hard to address.
